

HOTEL MANAGEMENT SYSTEM FEEDBACK

- Kindly include Guests as part of the department's messages can be sent to by admin, receptionist and manager in the Messages Module

- Allow the manager, receptionist and admin to be able to send a message to just a specific Individual either guest or staff or to all guests and staff based on selection in the message's module.

- Once a room is booked don't remove the room from the website featuring room listings, instead allow a new guest to book the room but Cross out the date a previous guest has reserved for that room and show the new user the next available date which hasn't been booked or reserved yet. So, they can book for the next available date.
- Allow guests to be able to pay to book hotel rooms or for food orders and bar orders using the cash balance in their credit wallet if the balance is sufficient then display an insufficient balance msg and suggest they complete the payment using the Transfer to bank option and upload their receipt.

The screenshot displays the 'Guest Portal' for 'Grand Hotel'. The user 'Micheal Linus' is logged in. A green notification bar at the top states: 'Room 102 reserved! Please complete your payment to confirm the booking.'

The main heading is 'Pay for Your Booking', with a subtext: 'Transfer the amount to the account below, then upload your receipt for confirmation.'

Below this, a card shows the booking details: 'Double Room - Room 102' for 'Jun 15, 2026 → Jun 16, 2026'. To the right, it indicates the 'AMOUNT DUE' is 'N12.00' and the status is 'UNPAID'. A red arrow points from this card to the 'Pay via Wallet' option.

The page is divided into two main sections for payment:

- BANK TRANSFER DETAILS:**
 - BANK NAME: Global Trust Bank
 - ACCOUNT HOLDER: Grand Hotel Pvt Ltd
 - ACCOUNT NUMBER: 1029384756
 - IFSC / SWIFT: GTBL0001234
 - BRANCH: Main Branch
- Upload Payment Receipt:**
 - Attach a screenshot or PDF of your transfer.
 - Receipt File: A button labeled 'Choose file' next to the text 'No file chosen'.
 - Amount Paid: A text input field containing '12.00'.
 - Reference / Note: A text input field containing 'Transaction ID / reference (optional)'.

A footer note at the bottom of the bank transfer section reads: 'Please transfer the total booking amount to the account above and upload your payment receipt.'

- Allow Admin, managers, and receptionist to see each customer's Credit wallet balance just as the managers can see each staff salary. Add this feature under the guess management page.

- Also allow Admin and Managers to be able to add credit amount to guest credit wallet for loyal guests as a reward that they can always use when next they check in also add this under Guest management page.

- Also display the VAT amount on the pay for your booking page and show the total amount the customer is expected to pay, also do the same for the food orders and bar orders if a VAT % is set and applied.

- Kindly add an expenses module that is only available to the admin and manager to record and add expenses like Staff salaries, Hotel Repairs, electricity bills etc.
- Kindly add an Accounting and Report module that shows the total food orders amount. Total bar orders and profit amount and the total hotel bookings amount. And subtracts the total expenses incurred from the total of the combined order and show the Total profit if the amount is positive or Loss amount if the amount figure is negative. and the ADMIN and Manager can filter this report by Day, a week, a month or a Year.

- The search bar at the top isn't working on any of the pages I tried searching in.

The screenshot shows the Grand Hotel Admin Panel. The top navigation bar includes the Grand Hotel logo, the Admin Panel title, a search bar containing the text 'kenneth', and a user profile icon labeled 'Admin AD'. The left sidebar contains a menu with options: Dashboard, Staff Mgmt, Rooms, Kitchen, Bookings, Guests, Bar Inventory, Sales Record, Branches, Messages, and Logout. The main content area is titled 'Staff Management' with a subtitle 'View and manage all hotel employees.' and a '+ Add New Employee' button. Below this is a table with columns: EMPLOYEE, ROLE, CONTACT, SALARY, EXP (YRS), and ACTIONS. The table lists seven employees with their details and actions (edit and delete icons).

EMPLOYEE	ROLE	CONTACT	SALARY	EXP (YRS)	ACTIONS

- The Manage button under the branches and location management page when clicked shows the switched successful msg but doesn't switch the dashboard to the selected branch for setup and adding rooms and staff for management. And, And, by default the first default branch should already be shown on the branch page to switch back to. And add the option under Edit Branches for the admin to be able to edit and change hotel details like logo and name and hotel address that are displayed on the invoice, booking website and on the dashboard.

- Kindly limit the numbers displaying to just 2 decimal places
